

FixAir Room M

UVC Disinfection
Technology

Noise As
Low As 35dB

HEPA+
Activated Carbon:
Remove 99.9% PM2.5

55W High Power

Designed for household use

Can kill 99.9% of air-borne microbes without producing any harmful by-product.

Bipolar Ionization

Mold, bacteria and viruses are deactivated.

Converts water vapor, already present in your air into positive and negative oxygen ions that seek out and destroy contaminants at their source .

High Processing Capacity

180m³/h

With 5 fans and 4 speed modes FixAir Room is engineered to tackle even the most challenging indoor air quality issues so you and your family/staff/customer can breathe easy.

Long Lifetime

8,000 hours

A one-time investment in UV light disinfection technology can save you time and money for Years.

Compact Design

Small enough to fit in tight

5 cms slimline design.

Smart Monitor System

High precision sensors

Can display air quality, humidity, temperature and timer on the screen.

Product Parameters

Product Name	FixAir Room
Model No	M
Voltage	90-264VAC
Total Rated Power	55W
Dimensions	55x5x30cm
Weight	4kg
Coverage	0-90m ³
Antibacterial Rate	90% - 100%
Replacement Filter Cartridge	HEPA + Carbon
Ion Output	100,000,000 positive and negative
Noise Level	35dB low speed to 55dB high speed
Fan Speed	High 180m ³ /h
	Medium 120m ³ /h
	Low 100m ³ /h
	Sleep 80m ³ /h
UV Lamp Lifespan	12000H
Tube Quantity	1pcs
